HHS Centers for Medicare & Medicaid Services Extends the Personal Health Record Pilot in South Carolina

Columbia, MD — Maryland-based QSSI is pleased to announce that the Department of Health & Human Services (HHS), Centers for Medicare & Medicaid Services (CMS) has extended the South Carolina Personal Health Record (PHR) pilot project.

As the prime contractor of the pilot project since its inception in September 2007, QSSI and our team members – Palmetto GBA and HealthTrio – look forward to continuing our partnership with CMS, the Office of E-Health Standards & Services (OEHS), and the beneficiaries of South Carolina.

QSSI works in partnership with HealthTrio, LLC to ensure that their industry-leading PHR is tailored for a senior population. The Medicare data is provided through Palmetto GBA, a Medicare contractor serving Region 11 that includes South Carolina. QSSI continues to create exposure and awareness of the My Personal Health Record South Carolina (MyPHRSC) pilot to South Carolina beneficiaries through a comprehensive outreach program that includes advertising, workshops, and participation in local events.

About My PHRSC

The MyPHRSC pilot provides an on-line PHR to beneficiaries with original Fee-for-Service (FFS) Medicare that reside in the State of South Carolina. The PHR allows participants to see their medical history, based on the past 2 years of claims. Additional information can be manually added, and the PHR provides helpful resources to understand diagnoses, conditions, and procedures. Having this information available on-line will help beneficiaries who elect this service better manage their health care needs and medical care. To learn more about MyPHRSC, go to www.myphrsc.com or call the toll free number 1-888-697-4772.

About QSSI

Founded in 1997, QSSI is a rapidly growing firm with a broad set of Information Technology (IT) solution offerings. A SEI CMMI® Maturity Level 3 firm, QSSI focuses on enterprise software development, security and privacy services, and critical IT infrastructure solutions as core competencies. QSSI has successfully performed on over 200 Federal civilian contracts and has over 400 IT professionals. Additional information about QSSI may be found at www.qssinc.com.
