## QSSI Announces Award of the U.S. Department of Education Federal Student Aid's Integrated Partner Management Contract

**Columbia, MD** — Maryland-based QSSI was recently awarded a prime contract by the U.S. Department of Education (DoEd) through its principal office of Federal Student Aid. The office of Federal Student Aid ensures that all eligible individuals benefit from Federally funded or Federally guaranteed financial assistance for education beyond high school. Federal Student Aid consistently champions the promise of postsecondary education and training to all Americans.

QSSI will support Federal Student Aid's Integrated Partner Management (IPM) Initiative. This is a strategic effort that will, through process modernization and automation, provide a single solution for enrollment, eligibility, and oversight processes used to manage partner entities as they administer Title IV Financial Aid for students. IPM will significantly improve business operations by providing the technology to track partner activities through the full lifecycle within Federal Student Aid's systems and increase overall partner satisfaction by providing a single integrated solution for all partner activities.

### About QSSI

Founded in 1997, QSSI is a rapidly growing firm with a broad set of Information Technology solution offerings. A SEI CMMI® Maturity Level 3 firm, QSSI focuses on enterprise software development, security and privacy services, and critical IT infrastructure solutions as core competencies. QSSI has successfully performed on over 200 Federal civilian contracts and has over 400 IT professionals. Additional information about QSSI may be found at [www.qssinc.com](http://www.qssinc.com).
